

GREYSTONES
SLATE

TECHNICAL SHEET

GRIS

GRIS is a slate originated from the quarries of León / Ourense in the northwest of Spain.

Meeting international certifications like CE, ATG and NF, we can offer 50, 30 and 10 years warranties*.

High quality slate, which thanks to its grey to dark grey color, a slightly rough surface, with the presence of harmless microscopic mineral encrustations, is ideal for the roofing sector.

Technical Informations

Water absorption	0,21 %
Non-carbonated carbon	1,20 %
Mean transverse breakage	53,5 N/mm ²
Mean longitudinal breakage	51,4 N/mm ²
Exposure to SO ₂	S1
Thermal cycle	T1
